ACTIVITY FIELDS OF PARTICIPANTS STARTUP VILLAGE 2016

WHAT TO EXPECT

Conference

More than 150 interactive sessions devoted to researches of technological trends, emerging of the new markets, transformation of business models and integration of breakthrough technologies into business practice.

Contest

More than 200 best startup projects, selected by experts, present their pitch presentations before professional jury — investors, representatives of the largest Russian and international technological corporations, research institutes.

Business meetings

At SUV 2016 6.000 meetings were initiated between investors and startups.

— Pre-plan the schedule of your meetings and book meeting rooms.

— Pre-examine the list of potential partners and select those who meet the criteria you specified.

— Send request for a meeting to potential partners, receive confirmation and reflect that in your personal calendar.

— Come to Startup Village 2017 to hold meetings using the pre-planned schedule.

Startup Bazaar

Exhibition of projects where young teams present advanced Russian developments from prototypes to finished goods.

In 2017 about 150 startups will participate in an exhibition.

Theme

HIGHWAY TO TECH, MONEY & SKILLS

The rapid changes, challenges and growing needs of business require high-speed movement with constant acceleration. This is the only way to catch the wave or keep up with the flow of ideas, projects and technologies.

Movement at maximum speed entails both drive and risk, new horizons and black swans. How is it possible to make use of all the features of the rapid tech changes we're seeing right now?

Startup Village is a meeting place for startups, investors, corporations and the government, combining the energy of all players.

MEDIA ABOUT STARTUP VILLAGE

Dr. Knut Sauer (VP Finance at Hyperloop One): I travel the world and look for partners for our project and our technologies. Here I see big potential for cooperation.

Igor Shuvalov: Skolkovo was meant to be one of the most innovative places where people with different professions and age can get access to various services and forms of support as in one of the world centers for the most talented young people.

Assistant to the President of the Russian Federation Andrey Belousov expects “explosive growth of technological breakthrough” before 2025. He announced this, speaking at Startup Village.

The main purpose of STARTUP VILLAGE is communication of startups with successful entrepreneurs.

During the opening of Startup Village **Deputy Prime Minister of the Russian Federation Arkady Dvorkovich** confessed that he was “proud of what we have achieved, we will go ahead together”.

Deputy Prime Minister of the Russian Federation Arkady Dvorkovich opened the largest conference Startup Village. Herman Gref attended Startup Village and communicated with students, startups and a robot.

10 projects of Startup Village 2016

Forbes asked founders of notable projects of the federal contest Startup Village to tell about their projects in just 25 seconds.

10000 startups, investors, innovators, accelerators and other innovative representatives from 20 countries came together to help each other on the difficult path of innovation.
